

0:00
thank you Mr chairman Dr wilinski you're
0:04
coming to the end of your tenure as the
0:06
CDC director which you started in
0:09
January of 2021 and we heard you say
0:13
today that the covid-19 vaccines are
0:16
safe and effective but what I'd like to
0:18
talk to you today about is the 1.5
0:22
million veres reports that also reported
0:26
35
0:27
000 deaths associated with the covid-19
0:31
vaccine and this has been what many
0:34
Americans feel like a largely ignored
0:36
issue they feel like the CDC has
0:39
completely ignored the reports they feel
0:42
like you as the CDC director have
0:45
completely ignored their reports and I'd
0:46
like to talk about that a little bit in
0:49
2020 it was late 2020 when Pfizer's
0:53
covid-19 vaccine was approved and there
0:57
were covid-19 vaccines were the second
0:59
High highest reported that was over ten
1:01
thousand but in 2021 when vaccines were

1:05
mandated it was a federal mandate in
1:08
September 9th of 2021 federal employees
1:10
and contractors were required 90 percent
1:13
of the 3.5 million uh people employed or
1:18
contracted under the federal government
1:19
got at least one dose of the vaccine
1:22
vaccine cards were widely required and
1:25
democrat-run cities all over the country
1:27
basically to become a member of society
1:30
and in 2021 coveted 19 reports
1:34
skyrocketed to number one at 728
1:38
829 reports second was the zoster
1:43
shingles vaccine at just over 14
1:46
000 that's a massive number and the
1:48
numbers kept growing and growing and
1:50
growing on the veres report I'd also
1:53
like to talk to you about how much money
1:55
the American taxpayers were forced to
1:59
pay Pfizer and moderna for vaccines the
2:03
government paid Pfizer and moderna in
2:06
2020 2021 and 2022 Pfizer received 15.27
2:12
billion dollars moderna received 9.99

2:17
billion dollars and boy did they get a
2:19
return on the American taxpayers
2:22
Investment because Pfizer amazingly in
2:28
2022 got a 23 percent increase but in
2:33
2021 they doubled their income doubled
2:37
their income at a 95 percent increase in
2:40
Revenue that's absolutely impressive
2:42
thanks to the American people but it was
2:45
modernas who whose numbers were
2:47
astounding moderna increased their
2:50
revenue in 2020 had a 1
2:55
238 percent increase in Revenue in 2021
2:59
one they got a 2
3:02
200 percent increase in Revenue thanks
3:06
to the American taxpayer where money got
3:09
funded into these big pharmaceutical
3:12
companies for these vaccines it's quite
3:14
impressive though that Pfizer worldwide
3:17
worldwide went from at
3:20
190 billion dollars right there towards
3:24
the beginning of 2021 and skyrocketed at
3:28
the end of 2021 to 330 billion dollars

3:31
worldwide that's quite impressive thanks
3:34
to the American taxpayer and thanks to
3:35
the CDC director Dr wilinski Who said
3:39
that vaccines were safe and effective
3:41
I'd also like to talk to you on behalf
3:43
of all the pregnant women not people as
3:47
you call them you quote to quote you on
3:49
August 11 2021 CDC encourages all
3:53
pregnant people it's women by the way
3:54
who are thinking about becoming pregnant
3:56
those breastfeeding to get vaccinated to
3:58
protect themselves from 19.
4:01
this has also been ignored the amount of
4:05
miscarriages and still births that
4:07
increased drastically due to your advice
4:10
to get vaccinated pregnant women again
4:13
not people
4:15
and then we could go on and on about the
4:17
tragic stories of myocarditis and many
4:20
other things but my question for you
4:21
today Dr wilinski is now that you're
4:24
going to be leaving the CDC pretty soon

4:27
what job are you going to take are you
4:29
going to be on the board of either
4:30
Pfizer or moderna because you've done
4:33
one hell of a job at making sure that
4:35
they've made a lot of money
4:36
um and I yield back thank you for that
4:39
question maybe first I will comment that
4:41
CDC is not responsible for the purchase
4:43
of vaccines so I can't speak to the to
4:46
all of the economics that you spoke to I
4:49
will do want to talk a minute about the
4:51
vaccine adverse reporting vaccine
4:53
diverse event reporting system so that
4:56
system is intended for any person who
4:58
has gotten a vaccine if they have an
5:00
untoward event after that vaccine
5:01
whether or not is related to the vaccine
5:03
they report it is intended to have an
5:06
over reporting all of the back not all
5:09
most of the vaccines that were being
5:11
given I remember we we gave 676 million
5:14
doses of the vaccine any adverse event

5:17
if you got hit by a truck after you got
5:20
your vaccine that was reported to the
5:22
vaccine adverse event Reporting System
5:23
we at CDC have a responsibility to comb
5:26
through every single one of them to
5:29
review the medical charts and to see if
5:31
they are related it is the case that the
5:33
vaccine doesn't prevent being Miss
5:34
volinsky I'll reclaim my time you did
5:36
nothing about that and continued to push
5:38
vaccines that's what the American people
5:41
care about we review all of the things
5:43
that come into the vaccine adverse event
5:45
Reporting System I'd be happy to have
5:47
our staff educate your staff on the way
5:49
I don't want my staff educated you
5:51
should educate the American people about
5:52
what you've done of 1.5 million reports
5:56
because they feel like you've done
5:58
nothing and continued to say safe and
6:01
effective maybe I will just close by
6:03
saying I don't have plans after I step

6:06

down thank you

6:08

I now recognize Mr code
